

Anastasiia Degtiar

Junior Full Stack Web Developer

Profile

Full stack web developer, graduated in 2025. I completed a six-month internship on an ERP built with Symfony and EasyAdmin, and I have been on a fixed-term contract since June 2026 to continue its development. I work on the back end, APIs, document management and communication between modules. I am ready to join a team and keep growing as a web developer.

Experience

Full Stack Web Developer (fixed-term contract) June 2026 – December 2026
CFD Technologies

- Continued development of the ERP: back end, APIs, document management and communication between modules.

Full Stack Web Developer Intern December 2025 – June 2026
CFD Technologies

- Six-month internship on the ERP: back-end development, APIs, document management and communication between modules.

Project: Custom ERP

Designed and developed alone an ERP for a paper and cardboard factory. Project still in development.

- **Leave management**: leave types, balances, annual renewal, requests, approval, refusal, cancellation, export.
- **Expense reports**: creation, status tracking, approval and reimbursement.
- **Timesheets**: clients, projects, tasks, change history, Excel export, REST API.
- **Cross-cutting**: notifications, password reset, administrator and user spaces, dashboards.
- **Tools**: Docker, Doctrine migrations, GitLab.

Symfony 8 | PHP 8.4 | EasyAdmin 4 | Doctrine ORM | Docker | GitLab

Education

Full Stack Web Developer (RNCP level 5)
Studi · March – November 2025

Development bootcamp (Piscine)
École 42 · June 2025
